

Torquay to Marshall Station Shuttle Bus (It's part of the plan).

The Torquay to Marshall Station Shuttle Bus service is being improved to better meet the travelling needs of people living in Torquay and Jan Juc.

From Monday 26 October, the Torquay Shuttle bus service will no longer stop at Spring Creek Reserve. The shuttle bus will operate on a new route via Torquay North and Wombah Park to ensure a more convenient service for residents. See the reverse timetable for more details.

The service operates from Jan Juc to Torquay and then connects to Marshall Railway Station where people can connect with V/Line rail services.

Travellers can purchase an adult Torquay/Melbourne weekly V/Line fare for only \$8 more a week than the Marshall/Melbourne fare.

This is great value considering the petrol savings people can enjoy when they're not driving to Marshall each day.

Passengers connecting to other Bellarine or Geelong Transit buses can use their myki or purchase a bus ticket from the driver.
